MiniPOS

Compact POS Computer

The POS-X MiniPOS Series Point-of-Sale Computer has been designed with the perfect balance of Performance and Value in mind. Incorporating the latest in 45nm CPU technology, the MiniPOS's Intel Atom D510 chipset provides Dual-Core performance while utilizing a fraction of the energy needed to power a typical desktop computer. In addition, the MiniPOS's petite footprint allows for easy storage under the counter or beside the register.
